## RSGB IOTA CONTEST

Back in April the RSGB Contest Committee decided that to minimise the impact of COVID-19, the IOTA Contest in 2020 is exclusively for Single Operators using their home stations: only "SO Fixed Island" stations and "SO Fixed World" stations will be eligible to compete in this year's event. However, **any island station will count for the island points and multiplier**, even if that station is not in the competition. Moreover, IOTA Ltd has confirmed that **"island contacts made over the weekend will count for its IOTA Programme in the normal way"**.

The IOTA Contest will be held from 12 UTC on 25 July until 11:59 UTC on 26 July, on 80, 40, 20, 15 and 10 metres CW and/or SSB. Complete details can be found on the RSGB Contest Committee's website: <https://www.rsqbcc.org/hf/rules/2020/riota.shtml>.

The following stations are expected to be active during the contest weekend from qualifying islands. For latest additions please give a look at the announced operations list maintained by Bill, NG3K: <https://www.ng3k.com/Misc/iota2020.html>

**JAN MAYEN 2021** • The JX0X DXpedition to Jan Mayen (EU-022) [425DXN 1521] is scheduled to take place between 15 September and 5 October 2021. The preliminary plan is for the team (LA7GIA, RA9USU, DL5EBE and RM2D) to depart on 15 September, and to reach their destination on the 18th, depending on sea conditions. Operations will start "as soon as possible on a few bands, not later than 24 hours from arrival to the island". JX0X will run up to four stations simultaneously for two weeks; the main modes will be CW and digi, plus some SSB. The expedition will focus on 160, 80, 60, 40 and 30 metres. QSL via Club Log's OQRS. Bookmark <http://jx0x.com/> for more information and updates.

**QSL FK1TS & 3D2TS** • With immediate effect, all QSL cards for FK1TS and 3D2TS should be requested via M0OXO's OQRS (<https://www.m0oxo.com/>). Cards already requested through Club Log's OQRS will be processed and sent out by M0OXO when the new cards arrive from the print shop. Traditional cards should be sent direct only to Charles Wilmott, 60 Church Hill, Royston, Barnsley, S71 4NG, United Kingdom ("please do not send cards to the bureau", Charles says, as "they simply will not arrive").

**QSL GALLERY** • The large collection of QSL cards on Les Nouvelles DX's website has been updated. Sixteen different galleries include 18,032 cards for the ten Most Wanted DXCC Entities (2010-19), the 62 deleted DXCC Entities, obsolete prefixes, stations from Maghreb from 1945 to 1962, Allied Forces stations in Germany (1945-70), special stations commemorating ITU and IARU, stations using the United Nations prefix (4U), Antarctic bases and TAAF (Terres Australes and Antarctiques Françaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1969), pre-1945 countries, French Departments and CONUS, plus a gallery for cards not accepted by DXCC. Your participation is encouraged: <http://www.lesnouvellesdx.fr/galerieqsl.php>. [TNX F6AJA].

**QSO TODAY VIRTUAL HAM EXPO** • The first QSO Today Virtual Ham Expo (8-9 August) [425DXN 1519] has now confirmed a packed lineup of over 70 speakers for the event. After each speaker finishes his talk, there will be a virtual live Q&A so participants can get immediate answers to their questions. The event will be held on a live virtual reality platform that simulates a full convention experience with an exhibit hall and exhibit booths staffed by live attendants, speaker auditorium, lobby, and lounges. Attendance is free and there are early bird prize incentives (donated by sponsors) for registering by 24 July: <https://www.qsotodayhamexpo.com/>. As of 20 July, over 11,000 people had already registered. The QSO Today Virtual Ham Expo will run for 48 hours as a live event, then attendees will be able to access all speaker presentations and exhibitor booth content for another 30 days.

**VK9NK** • Janusz, SP9FIH left Norfolk Island a few days ago, after nearly 58,000 QSOs made between 13 January and 5 July. QSL via Club Log's OQRS (preferred), or via home call.

**WWFF SUMMER TOUR** • Timo, OH1NOA (<http://thehamradio.com/>) is going on a "WWFF Summer Tour" to Estonia, Latvia and Lithuania. He plans to operate CW and SSB as ES1NOA/# (12-13 and 22-26 July), YL/OH1NOA (14-17 and 21 July) and LY/OH1NOA (17-20 July) from 25-30 different protected areas. Updates will be posted to the World Wide Flora & Fauna programme's website: <http://wwff.co/agenda/>. QSL via the bureau and LOTW.

**YASME SUPPORTING GRANTS** • The Yasme Foundation has allocated funds to purchase equipment needed to add 15 nodes to the Reverse Beacon Network. These new nodes will be added in regions where there is a need for reception reports to support amateur radio operation and where those reports will also have scientific value for geophysical research. Yasme

was assisted in this effort by supporting grants from the Amateur Radio Digital Communications team (<https://www.ampr.org/>), and by scientific advice from the HamSCI (<https://hamsci.org/>) researchers. Information on the node locations will be available after a final list of hosts is available.

The Foundation has also allocated funds for the purchase of equipment to upgrade the OX3NUK club station in Nuuk, Greenland. In addition to helping the club stay active on the air, the station can serve as a venue to promote amateur radio through outreach to local schools and the Scouts for their fall Jamboree.

The Yasme Foundation (<http://www.yasme.org/>) is a not-for-profit corporation organized to support scientific and educational projects related to amateur radio, including DXing and the introduction and promotion of amateur radio in developing countries. [TNX K4ZW]

## POSTPONEMENTS & CANCELLATIONS

**9A20A** • The 18-31 July operation from the Palagruza Islands (EU-090) [425DXN 1521] has been cancelled owing to health and safety issues arising from the COVID-19 pandemic.

**CY0C** • The CY0C DXpedition to Sable Island, originally scheduled for 17-26 October, has been postponed until October 2021 due to the ongoing pandemic. Foundations, clubs and individuals who have already contributed to the DXpedition can choose whether to get "a complete and total refund", or "to apply their donations to the 2021 Sable Island CY0C DXpedition". See <http://cy0dxpedition.net/index.html>.

**KH6VV/KH4** • The DXpedition to Midway Island [425DXN 1476] has been postponed. "We've all seen the latest pandemic news. It's not progressing in a good direction, or anything like the earlier predictions", Ron KH6DV posted to qrz.com on 9 July. "We have encountered a strong and understandable pushback related to the original operation date of October 2020. Once there was the possibility of moving the operation to the second half of February 2021 the conversation turned more positive. The application for the Special Use Permit for Midway has now been edited, and now proposes a period of the second half of February and will be submitted this week. Two things now need to happen: (1) we need more operator interest, and (2) we need more donations to the expedition PayPal page(KH6VV@[ ]outlook.com)".

**TO5T** • The 10-17 August DXpedition to St Pierre & Miquelon [425DXN 1503] has been cancelled. It will be rescheduled sometime next year. [TNX DX World]

**XR0YHM** • Hans-Martin, DK2HM has had to cancel his XR0YHM operation from Easter Island [425DXN 1511]. He expected to be QRV from 27 August to 7 September, but "all flights have been cancelled by the air company now, and there is no chance at the moment to postpone the flight tickets or to get a safe new date for a future activity".
