INTREPID SPIRIT AWARD • The Intrepid DX Group is seeking nominations for their annual Intrepid Spirit Award and Humanitarian Award. The Intrepid Spirit Award (http://www.intrepid-dx.com/awards.php) is made in memory of James McLaughlin, WA2EWE/T6AF (killed in Kabul, Afghanistan, on 27 April 2011). The award is given to the individual or group that most displayed their "intrepid spirit" in 2018, by expressing "an unshakable commitment to the Amateur Radio DX Community". The Humanitarian Award is given to the individual or group that most serves their fellow man via Amateur Radio. Nominations may be submitted via email to intrepiddxgroup[@]gmail.com and must be

received by 15 January. The Board of Directors of the Intrepid DX Group will evaluate the nominations and the awards will be presented at the International DX Convention in Visalia on 13 April.

LOTW MILESTONE: ONE BILLION QSOS • As of 21 December, some 1,000,400,000 QSO records have been entered into ARRL's Logbook of The World system. The 1,000,000,000th record was uploaded by 7X3WPL on 19 December at 23:32 UTC for a 20m SSB QSO with IW1DQS that took place on 28 December 2016. The upload resulted in a match (QSL). One billion QSOs represent a significant milestone, but a more important statistic may be the nearly 188 million QSOs confirmed via LoTW since 2003. Today, 75% of all DXCC applications are filed via LoTW, which accounts for 86% of confirmations applied. See www.arrl.org/news/arrl-s-logbook-of-the-world-tops-1-billionaso-records.

RAEM CONTEST • The 47th RAEM Contest (http://raem.srr.ru/en/main/) will be held on 23 December, from 00.00 UTC until 11.59 UTC, on 80, 40, 20, 15 and 10 metres CW. Organized by he Russian Amateur Radio Union (SRR), this annual event memorializes Ernst T. Krenkel (1903-1971), the legendary Arctic explorer and radioman (callsign RAEM) on various polar stations and on the first drifting ice station North Pole-1.

TQSL: NEW VERSION • A new version (v2.4.3) of LoTW's Trusted QSL (TQSL) is now available: http://www.arrl.org/tqsldownload. It has new features as well as corrections for defects found since TQSL 2.4.1 and 2.4.2 were released. It also includes an update to the most recent TQSL configuration file.

TT8KO • Ken, LA7GIA has posted the complete story of his unfortunate DXpedition to Chad http://la7gia.com/Chad/index.html.

TXOM & TXOA • Adrian, KO8SCA and Cezar, VE3LYC logged 7,513 QSOs as TX0M from Morane Atoll (OC-297) on 6-10 December, and 5,133 QSOs as TX0A from Maria Est Atoll (OC-113) on 12-16 December. The logs have been uploaded to Club Log, and the OQRS for both callsigns has been enabled.

WAB GOLDEN ANNIVERSARY • 2019 marks the 50th anniversary of the Worked All Britain Awards Group. To mark the occasion, three new awards will be introduced for 2019 only. In conjunction with the new awards, GB50WAB will run throughout the year, along with a number of other regional special event stations. This commences on 1 January, with GB50WAB for two weeks from C62 in Northern Ireland, and GB9WAB for four weeks from SK51 in Leicestershire (England). For details of the special Golden Anniversary Awards, please visit http://worked-all-britain.org.uk. [TNX GB2RS]

WSJT-X 2.0 • The General Availability (GA) release of WSJT-X Version 2.0.0. has been available for download since 10 December. "If you have been using version 1.9.1 or earlier, or one of the candidate releases v2.0.0-rc#, it's important to upgrade now", K1JT says. "The original protocols for FT8 and MSK144 are no longer supported. With v1.9.1 and earlier you cannot communicate with WSJT-X 2.0 using these modes. We now recommend using WSJT-X 2.0 anywhere in the conventional FT8 and MSK144 sub-bands. Everyone should upgrade to v2.0 by no later than January 1, 2019". Links to installation packages for Windows, Linux, and Macintosh are available here: http://physics.princeton.edu/pulsar/k1jt/wsjtx.html. The "Quick-Start Guide to WSJT-X 2.0"

has been updated, and will be helpful to many, espentite://physics.princeton.edu/pulsar/k1jt/Quick Start WSJT-X 2.0.pdf. especially experienced users WSJT-X of
